

1 <https://developers.facebook.com/>

2. Click on MyApps

3. Create App

4. Choose Consumer

Select an app type
The app type can't be changed after your app is created. [Learn more](#)

- Business**
Create or manage business assets like Pages, Events, Groups, Ads, Messenger, WhatsApp and Instagram Graph API using the available business permissions, features and products.
- Consumer** (Selected)
Connect consumer products, and permissions, like Facebook Login and Instagram Basic Display to your app.
- Games**
Create an HTML5 game hosted on Facebook.
- Gaming**
Connect an off-platform game to Facebook Login.
- Workplace**
Create enterprise tools for Workplace from Meta.

5. Next and Enter Details and Create App

Add details

Display name
This is the app name associated with your app ID. You can change this later.

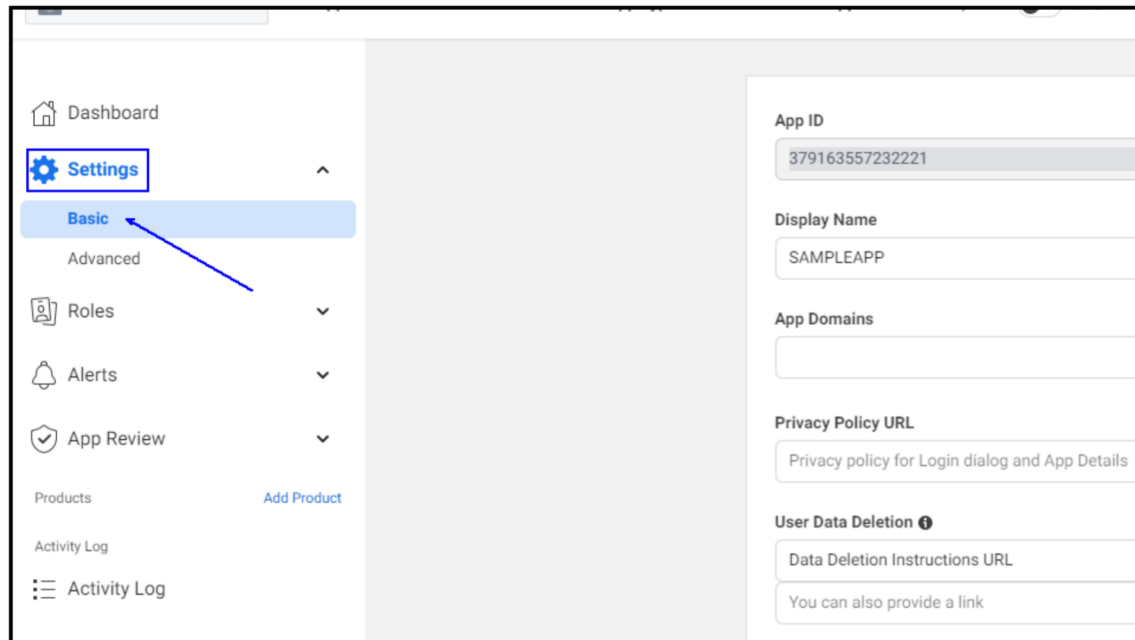

App Contact Email
This email address is used to contact you about potential policy violations, app restrictions or steps to recover the app if it's been deleted or compromised.

Business Account - Optional
To access certain permissions or features, apps need to be connected to a Business Account.

By proceeding, you agree to the [Facebook Platform Terms](#) and [Developer Policies](#).

6. Click on Settings and choose basic

The screenshot shows a settings interface. On the left is a sidebar menu with the following items: Dashboard, Settings (highlighted with a blue box and a blue arrow pointing to the Basic tab), Basic (highlighted with a blue box), Advanced, Roles, Alerts, App Review, Products (with an 'Add Product' link), Activity Log, and Activity Log (with a hamburger menu icon). The main content area on the right contains several form fields: App ID (379163557232221), Display Name (SAMPLEAPP), App Domains (empty), Privacy Policy URL (Privacy policy for Login dialog and App Details), User Data Deletion (Data Deletion Instructions URL, with a note 'You can also provide a link'), and a 'Reset' button.

7. Copy Client Id and Secret

The screenshot shows the 'App mode' configuration page. At the top, there is a toggle switch for 'App mode' with 'Development' selected and 'Live' as an option. Below this, the 'App ID' (379163557232221) and 'App Secret' (653905c58336109167b0dd25a558859f) are displayed in text boxes. A blue arrow points from the text 'copy these' to the App ID box, and another blue arrow points to the App Secret box. A 'SHOW' button is visible next to the App Secret box, and a 'Reset' button is below it. Other fields include Display Name (SAMPLEAPP), Namespace (empty), App Domains (empty), Contact Email (javabyraghu@gmail.com), Privacy Policy URL (Privacy policy for Login dialog and App Details), Terms of Service URL (Terms of Service for Login dialog and App Details), User Data Deletion (Data Deletion Instructions URL, with a note 'You can also provide a link'), and App Icon (1024 x 1024) with a placeholder image.
